BOARD OF TRADE.

Business Meeting of the Directors Held Last Evening.

The Board of Trade met last night in the Masonic Temple room. A most pleasant meeting it proved to be; aside from the social joys the members get, there is a business accomplishment doing great things for Maysville.

Three things of local importance were discussed and disposed of last night.

The first was the hearing of the Committee appointed some weeks ago to raise funds, \$700, to assist in bringing a shoe factory here. Only \$100 is yet needed and the Committee is assured they will have no trouble in having subscribed this amount. Mayor Stallcup, Captain Phister and James W. Fitzgerald will round up Monday.

The second feature of prominence was the communication from Congressman Pugh, giving to the Board in pamphlet form the favorable reports of the Chief Engineer of United States Army of the Ohio river, asking Congress to appropriate \$21,000 to build ice piers at the mouth of Limestone creek. Attached to the report is a brief but comprehensive history of Maysville.

The last item was the Tobacco Fair. The date is Monday, January 21st, 1901. Some \$200 will be given in premiums and the tobacco growers only can exhibit, all dealers barred absolutely.

How to Cure Croup.

Mr. R. Gray, who lives near America, Duches county, N. Y., says: "Chamberlain's Cough Remedy is the best medicine I have ever used. It is a fine children's remedy for croup and never fails to cure." When given as soon as the child becomes hoarse, or even after the croupy cough has developed, it will prevent the attack. This should be borne in mind and a bottle of the Cough Remedy kept at hand ready for instant use as soon as these symptoms appear. For sale by J. Jas. Wood & Son, Druggists.

For Xmas presents go to Chenoweth's.

TOBACCO FACTORY.

Why Not Establish One Here After the Next Fair?

SOME VERY GOOD SUGGESTIONS.

On January 1st, 1901, our Shoe Factory will be in operation. This we have accomplished.

For more than a year we have been agitating the matter of a plug tobacco factory in Maysville. The matter of obtaining factories for our city rests entirely with the citizens of Maysville. If we desire factories, we can get them; they are not coming to us without we give them an invitation and encouragement.

The plans for the approaching Tobacco Fair are such as to bring into our midst the manufacturers of Cincinnati, Louisville, St. Louis, and probably of Eastern cities, for the purpose of seeing the character of tobacco which will be exhibited here. The warehousemen of Louisville and Cincinnati, and the buyers for same, will be here in force on that day.

It is expected that every tobacco raiser in the county of Mason will be especially interested in making the Tobacco Fair of 1901 a great success. It is expected that every farmer in the adjoining counties, and in many counties more remote from this city, and also from the state of Ohio, will be interested and will be competitors at the Tobacco Fair.

The greater the interest and enthusiasm awakened for the purpose of making this enterprise a success, the greater will be the interest taken by the manufacturers, warehousemen and buyers from other points. Let each citizen deem it a privilege to be able to contribute his part toward this end, and incidentally towards bringing to our city persons who are interested in starting a tobacco factory. If you have friends who are engaged in this business, invite them to come to Maysville and see all the facilities we offer for the purpose of manufacturing plug tobacco.

A few years ago the cotton, which was grown in the Southern states, was manufactured in the East. At the present time, the manufacturing of cotton is carried on very largely in the South. The reason for this is obvious; the raw material is there ready for use; it can be manufactured as cheaply there and shipped to any point in the world without having to pass through the process of being transferred from one section of the country to the other in order to be manufactured. Why cannot the product of Kentucky be manufactured in Kentucky? Why cannot the product of Mason county be manufactured in the city of Maysville?

What Maysville needs is manufacturing establishments which will employ her citizens, and keep our ambitious and industrious young men at home. This will build up our city in material prosperity and wealth. Let us be unanimous in our efforts to make the Tobacco Fair of 1901 a success and bring to Maysville a Plug Tobacco Factory. We already have buildings admirably suited for such a purpose.
